THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Littleton qualified to vote in town affairs :

You are hereby notified to meet at the Town Hall, in the Town Building in said town, on the second Tuesday of March next, at 10 o'clock in the forenoon, to act upon the following subjects :

Article I. To choose a Town Clerk for the ensuing year.

Article II. To choose three Selectmen for the ensuing year.

Article III. To choose three Trustees for the Littleton Public Library to serve for three years each in the place of Frederick G. Chutter, Delia B. Mitchell and Frank B. Pelton, terms expired.

Article IV. To raise such sums of money as may be necessary for the support of schools, for the laying out and constructing and repairing highways and bridges, and for the payment of town debt and interest, and for the maintenance of the poor, and for all other necessary town charges.

Article V. To see what sums of money the town will raise and appropriate for the observance of Memorial Day.

Article VI. To choose an Auditor for the ensuing year.

Article VII. To see what action the town will take in reference to constructing a bridge across the Ammonoosuc river between the present village bridges.

Article VIII. To see what inducements the town will offer the Pike Manufacturing Co., by way of exemptions or other inducements, to locate their oil stone works in this town.

Article IX. To see what action the town will take with reference to establishing a band and raising money to support the same.

Article X. To see if the town will authorize the Selectmen to make regulations for the planting, protection and preservation of trees upon lands within the town appropriated to public uses, including highways; and to appoint an agent to see that the regulations in relation thereto, and the laws in relation to placing or putting devices, trade marks, or notices upon fences, bridges or other structures or upon rocks or other natural objects in town are enforced and the violators of the regulations and laws punished.

Article XI. To see what action the town will take in relation to the completion of the Town History.

Article XII. To hear the reports of agents, auditors and committees or officers heretofore chosen and pass any vote relating thereto.

Article XIII. To choose any other necessary town officers for the year ensuing.

Article XIV. To transact any other business that may legally come before the meeting.

Given under our hands and seal this twenty-fifth day of February, 1901,

CURRENT COMMENTS

The fiscal year now closing exhibits a continued decrease in disorder in this town and vicinity so far as its existence is reflected in criminal prosecutions. The total this year is 29, as against 38 last year. It will be noted that the number of residents sentenced for drunkenness has been reduced to the remarkably low figure of ten for the entire year. In this connection it should be remembered that the population of the town by the last census was 4,066.

While the public facilities for inducing a state of intoxication in this town are neither ample nor convenient, it may also be said that the enforcement of the penalties for this offence, in the local court, is as certain, invariable and impartial as it is practicable to make it. A substantial fine of ten dollars is imposed for the first offence in every instance, with distinct notice that a repetition of it on the part of the same respondent will inevitably be followed by a sentence to the jail or to the house of correction. It is not, however, so much the severity of the sentence in such offences that acts as an effectual deterrent and corrective, as it is the certainty of the infliction of well understood and sufficient penalties. It is axiomatic, also, that that community attains to the best moral and material status, in which criminal conditions are by adequate laws and their honest, efficient, fearless and impartial enforcement, discountenanced and prevented.

The details of the administration of the court during the year are fully reported in the financial and statistical tables which are appended.

Attention is again called to the comments in the reports for 1899 and 1900, which urge the importance of care on the part of officers, attorneys and complainants in criminal proceedings, in creating unnecessary liability for costs of prosecution.

ALBERT S. BATCHELLOR,
Justice of the Municipal Court.

REPORT OF LIBRARY TRUSTEES

This year has been the most successful thus far in the history of our library. We are reaching toward a point long desired when it shall become one of the great factors in the life of our people, when into every home its stream of intellectual power shall go, bearing to old and young a blessing.

The circulation of books the past year has exceeded that of any previous year by 2,000. In all, 17,700 books have been loaned; 73 per cent. have been works of fiction, but they have been of the higher class; nine per cent. has been of histories and travels and a good number of biographies.

The introduction of the dual card system, by which the borrower can obtain two books, one of light reading and one of more solid, has met with universal favor.

Duplicate copies of popular fiction have been provided and a waiting list kept, so that in turn each can have the book desired, the librarian notifying such by postal card.

We have purchased 204 volumes, 38 replacing those worn out. We have added new books on the topics of the day, such as those dealing with China, Africa, Expansion, Trusts, etc., also books of references, Tyler's literary history of the American people, art, artists, etc.

The limited appropriation limits painfully the book committee. They are much restricted; books seemingly a necessity are compelled to wait. We are sure there is no money spent by our town which brings back a larger return to all the people all the time than that spent for the library.

Our reading room is well patronized by old and young. It is more than a meeting place; it is indeed

a workshop, a field in which much gleanings is done by the children of our schools and the members of our clubs.

To our large list of papers and magazines, we have this year added Masters in Art, Crane's Magazine of History and Geography, Kindergarten Review, The Osteopath donated by Dr. Mary Burbank, The Christian Register by Rev. Charles Graves, Truth by a Catholic friend and the Christian Science Sentinel.

Mrs. Curtis Bowman has presented to the library four volumes of books belonging to the old Glynville library; five books of fiction have been given by Hon. D. C. Remich; The 100th Anniversary of the North Star Lodge by Hon. A. S. Batchellor, while ex-Gov. Moody Currier and ex-Gov. F. W. Rollins have each given a book.

REPORT OF THE Committee on Town History.

The undertaking in charge of this committee last year encountered an unforeseen and serious hindrance by reason of a fire that destroyed the book binderies at Cambridge, in which the University Press, the town's contractors for printing and binding the town history, had deposited a large part of the printed sheets constituting the principal portion of volume two of the work. While this was the pecuniary loss of the printers, so far as the sheets destroyed were concerned, it nevertheless necessitated the reconstruction and reprinting of the entire material of one volume with such corrections and additions as the lapse of time since the first copy was printed rendered advisable. The University Press were enabled with the able and expert co-operation of Hon. Ezra S. Stearns, who was selected by the committee as the town's agent to make the revision and superintend the proof reading, to accomplish the reproduction of the material in a second imprint in the course of the past fall and winter. The index to this volume, which is devoted to genealogy and official and statistical tables, is in preparation in a revised form, made necessary by the destruction of the original sheets.

It should be stated for the purpose of greater accuracy in the information given in the report of last year, and for the correction of a mistake in the name of our contractors for the printing of the work, that

it is in the hands of the University Press and not the Riverside Press, as unintentionally misstated last year.

The first volume is not completed at this date as it was hoped and expected that it would be.

Mr. Jackson, the historiographer, has brought his work on the annals of the town down to the year 1840, and to that point, on that line of his composition, the narrative has been printed.

The quality of Mr. Jackson's work has been found by the committee to be thorough and satisfactory and of such a character as promises to make it one of the best town histories yet produced in this state.

The committee have regained the ground lost by the lamentable accident which overtook the University Press in the loss, by reason of the fire of last year, of so large a part of the work they had contracted to do for this town.

It is believed that with a prompt supply of copy, sufficient to give the printers material at all times upon which to be employed in getting the narrative in type, there should be no further occasion for delay in having the completed work before the public.

Under the vote of this town at the March meeting of 1899, as modified and amended by the votes of March and November, 1900, the powers of the existing committee close at the coming March meeting.

In order to accomplish the publication of the work now very nearly completed, it will be necessary that the authority of this committee be renewed and extended, or that another should be appointed in their stead.

A. S. BATCHELLOR, Chairman,
For the Committee.

Respectfully submitted,
 JOHN S. RENFREW,
 MARSHALL A. EATON, }
 FRANK M. RICHARDSON, } Commissioners.

Examined and found correct,
 CHARLES F. EASTMAN, Auditor.

To the Honorable Board of Commissioners of the
 Littleton Fire District.

Gentlemen:

For the year ending February 1, 1901, there have been 15 bell alarms and 20 still alarms, a total of 35, or over twice as many as last year. Five of these, however, have been calls outside the Precinct, which leaves 30 for causes arising within the Fire District, only one of which has been of a serious nature.

Chimneys burning out were the cause of 28 alarms, defective stove pipes, 2; grass set by sparks from locomotive, 1; sparks from chimney, 1; gasolene, 1; cause unknown, 2. The total loss by fire, within the Precinct, for the year has been \$2,300, fully covered by insurance.

In the performance of their duties the members of the Department have laid 5,000 feet of hose, of which 3,900 feet was used, and have used 31 chemicals.

The cost to the Precinct has been \$322.75, an average of \$9.36 3-7 for each alarm, against a total cost of \$274.85 and an average of \$16.19 for each call last year.

As out of a total of 30 alarms within the Precinct limits 28 have been for chimney fires, I would suggest to the Commissioners that they appoint some competent person or persons to inspect all property within the said limits and make a written report as to condition of chimneys, stoves, stove pipes, storage of ashes, etc. Also to require all property owners to take proper care of their chimneys, by so doing making a chimney fire a rare occurrence. Should the Commissioners take the suggested action, it would, in my opinion, be a good benefit financially to the Precinct.

I would also suggest that some plan should be devised whereby the officers and men of the Department would become familiar with the stairways, ways of access to the roof and general plan of the larger buildings on Main street.

Respectfully,

E. C. YOUNG, Chief Engineer.

RECOMMENDATIONS.

We would respectfully recommend the purchase of 2,000 feet of cotton, rubber-lined, fine hose of some standard make, that amount being necessary for the protection of Main street.

We especially recommend and urge the purchase of runners for use upon apparatus, as the drawing of the heavy teams through the usual great depth of snow in winter is a great handicap to the horses, and also causes a loss of time at the beginning of a fire, when time is of the greatest value.

The purchase of more fire alarm boxes. There is much valuable property in the District that is not only at a considerable distance from any box, but is so situated that, in case of fire, an alarm from the nearest box would mislead the Department as to the location of the fire, thereby causing unnecessary delay.

The appointment of two fire police, to be paid a reasonable compensation for actual service, which shall be to answer all alarms, the same as regular firemen, to protect property and prevent interference with the firemen and apparatus.

Thanking you for your many courtesies and hearty co-operation with us in striving to promote the efficiency of the Department, we are,

Your obedient servants,

E. C. YOUNG,	}	Engineers of Littleton Village District.

- No. 55—Near shoe shop, Apthorp.

DIRECTIONS.

The glass covered box on side of alarm boxes contains the key; get the key by breaking the glass, and open alarm box; pull down the hook, letting go at once. **DO NOT PULL A SECOND ALARM UNLESS ORDERED BY THE CHIEF ENGINEER OR ONE OF HIS ASSISTANTS.**

The alarm will indicate the station from which the signal was given. Thus, a signal from Station 42 will be sounded by four strokes of the bell, followed by two strokes. This will be repeated, so that notice will be clearly given that fire has broken out in the vicinity of Station 42, if that be the case, because the alarm sounds a four, by four strokes of the bell, and a two, by two strokes of the bell. In this way Station 42 is indicated. The other stations will be indicated in a similar manner, the second number struck by the alarm bell corresponding to the number in unit's place, either 2, 3, 4, 5, 6 or 7, as the case may be.
